

Packaging products for your E-commerce business

an employee-owned business

kitee

Eco-friendly & 100% recyclable

Unique design

Hive shape cells interlock - No tape or glue required

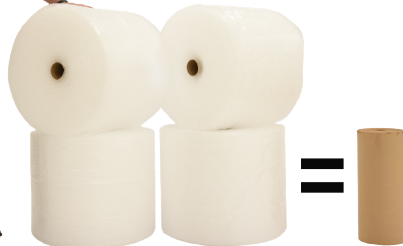

Hivewrap

100% recyclable and biodegradable, Hivewrap paper wrap is the perfect alternative to foam and bubble wrap.

Why make the move from bubble wrap to Hivewrap?

- ✓ Space saving - see image below
- ✓ 35% £ saving when compared to our bubble wrap as below
- ✓ No tape or glue required
- ✓ Aesthetically pleasing
- ✓ Increased speed & efficiency
- ✓ Highly protective

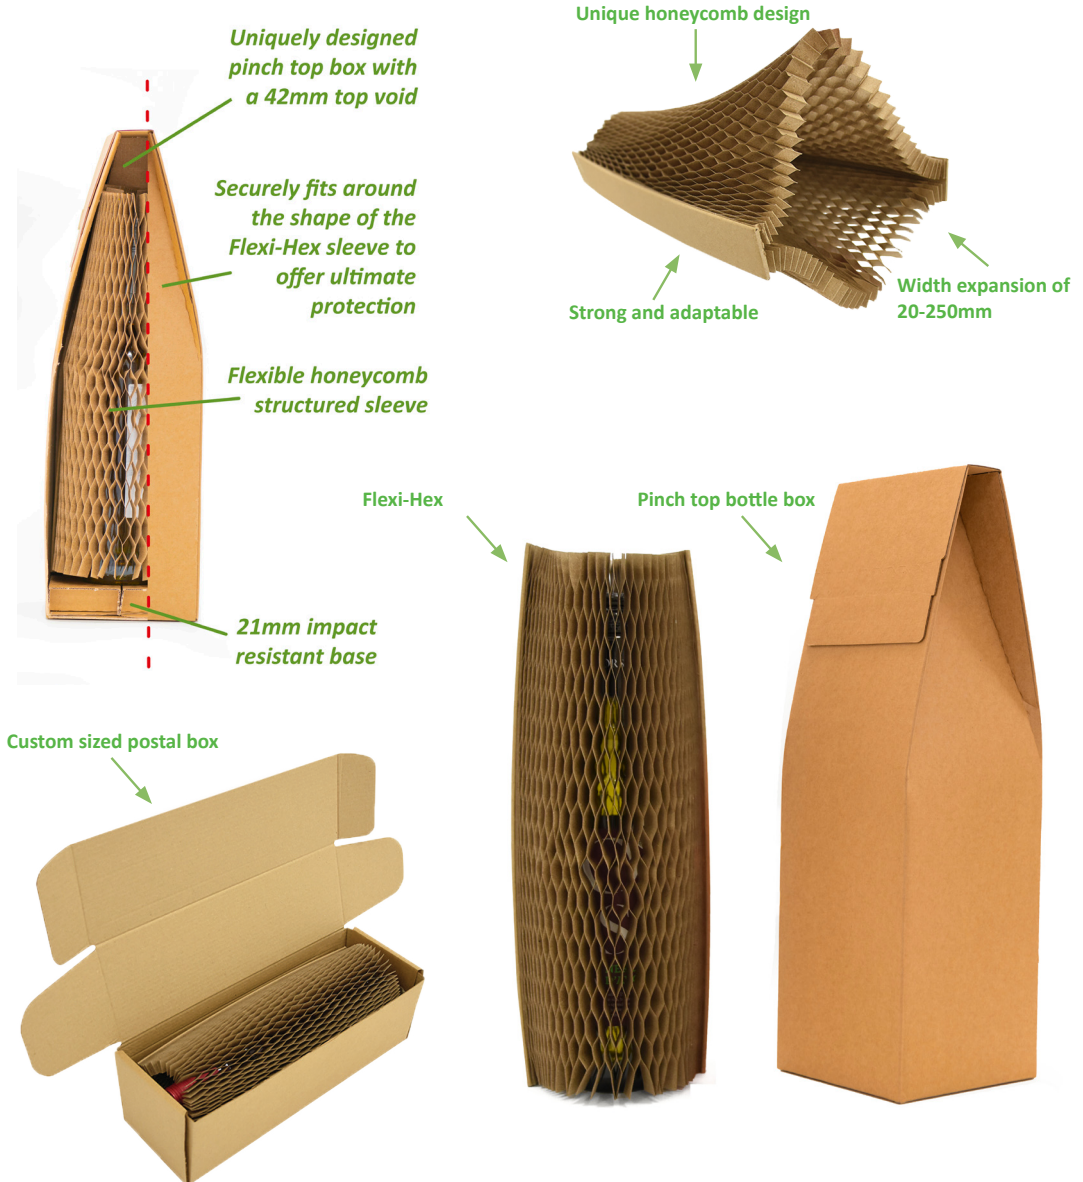

4 x 500mm small bubble rolls

1 x 500mm hivewrap roll

Flexi-Hex[®]

- A 100% recyclable and biodegradable cost-effective alternative to plastic and polystyrene. Flexi-Hex is an extremely strong, robust and adaptable product ideal for protecting glass bottles, ceramics, homeware, cosmetics and much more. Use in conjunction with our uniquely designed pinch top box pictured below with more details, or our custom sized postal box, pictured below.

Shredded paper

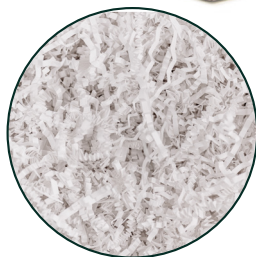

- Shredded paper is the perfect void fill solution for not only protecting items but also as an added aesthetic for boxes, gift bags, baskets, hampers and more

Zig zag design

Aesthetically pleasing

Provides great protection

Brown kraft produced from 100% recycled materials

Boxes for bottles with dividers

- Made from heavy-duty cardboard and available for 6 or 12 bottles, this range is perfect for the drinks industry to support bottles during transport and storage.

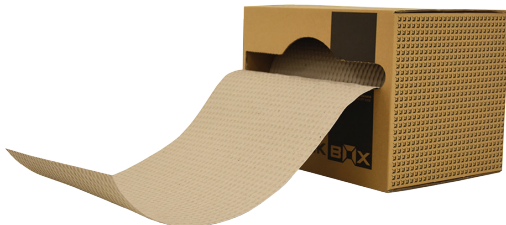

Corrugated sleeving

- 100% recyclable and biodegradable protective bottle sleeve. Suitable for protecting bottles, glass, ceramics, jars, small metal items and much more in transit.

Paper void fill solutions

- We offer a wide range of paper void fill solutions. For medium to large operations we have the option of systems that can be used either alone, or integrated and for smaller operations we have manual dispensers, dispensing paper bubble and paper void fill.

Tissue paper rolls & dispenser

- The perfect 100% recyclable cost-effective, aesthetically pleasing solution for gift wrapping and adding a professional finish. Commonly used to protect items such as clothing, homewares, cosmetics, jewellery, crafts and much more. Our FSC certified tissue paper comes in 6 colours and is of great quality. The dispenser is designed for simplicity and efficiency and makes the tissue paper easily accessible for a streamlined packing operation.

Loose fill

- Starch-based loose fill chips ('greener' than polystyrene) are 100% biodegradable and provide cushioning for a variety of products.

Wood wool

- A light, biodegradable void fill made from shredded timber. Environmentally friendly solution that creates a highly presentable package or hamper.

Bubble wrap

- Co-extruded bubble wrap offers impact protection for many items and our Jiffy has a layer of nylon barrier film to improve air retention. Small and large bubble available.

Mini Air

- The machines produce air cushion packaging on demand for void fill, wrapping, interleaving and more and are suitable for all volume requirements.
- Due to their compact designs, they are hugely space saving compared to void fill or bubble wrap and simple and easy to use.
- 12 different films available along with a range of accessories to support efficiency.

Air shock

Our air shock is manufactured from low density material; when inflated it offers a rigid and highly burst-resistant pack. Although designed with specific products in mind, these packs can also be used with items that fit within the usable dimensions. Suited to a variety of products, with or without a box.

Custom printed envelopes

- Suitable for businesses of all sizes our custom printed envelopes are a cost-effective way to keep your products safe all whilst promoting your brand.

Ecommerce boxes

- E-commerce boxes with a crash lock base design and an integrated peel-&-seal adhesive strip and open tear strip for speed and efficiency.

Pillow boxes

- Pillow boxes for a range of uses will easily pop into shape to form attractive pillow structures. Made from strong 400gsm paper and easily sealed with tape, labels or glue.

Boxes

- We have a wide range of boxes suitable for a multitude of uses. Our range includes single wall, double wall, enviro-boxes, white boxes, long square boxes, heavy duty boxes and much more.

Wax lined food boxes

- Wax lined boxes suitable for a wide range of food items including meat, poultry, cakes vegetables and much more. Suitable for direct contact with food with no extra lining required.

Picture frame boxes

- Telescopic picture frame boxes are designed to fit around items such as paintings and framed artwork. Extremely strong they are adjustable in height making them perfect for a variety of sizes.

Postal boxes

- Available in white or brown, our postal boxes are Royal Mail PiP compliant and particularly popular in the retail industry. They are quick and easy to assemble and look fantastic when paired with coloured tissue paper.

Mailing bags & envelopes

- Mailing bags are an excellent cost-effective solution for sending out a wide range of items. From paper mailing bags, polythene mailing bags and sugar cane mailing bags, to arofol envelopes, jiffy padded bags, weather-mailers and much more.

Long postal boxes

- 100% recyclable heavy-duty corrugated packaging suitable for heavy duty items such as engineering parts but also perfect for golf clubs, curtain poles and more.

Round postal tubes

- Commonly used for sending items such as posters, artwork and much more in the post along with umbrellas and textiles. All sizes come with plastic end caps.

Triangular postal tubes

- Delivered flat packed with integrated end flaps, they are used for sending and protecting artwork, prints, plans, posters and much more. Due to their unique design, they are ideal for label scanning and sortation and can be stacked together easily.

Mailers

- Our range of twist wrap, capacity, corrugated and book wrap mailers are 100% recyclable and the perfect solution for when sending out items in the post. Each have a peel-&seal strip and easy open tear.

Tape

- We have a range of tapes suitable for different uses. Whether you are looking for custom printed tape to add to your packages and get your brand recognised, paper tapes suitable for use with and without machines, coloured tape, hot melt, acrylic, solvent and much more.

Your UK packaging partners

History and ethos

Kite was founded from scratch in 2001 with a unique vision - To be the premier packaging supplier in the UK with a philosophy of employee-ownership. At Kite we believe that "customer satisfaction matters so much more when you own the business".

In-box team

Void fill/Dunnage is a complex area with pack velocity, cost, customer perception and the environment all critical factors. Our team can help and advise.

Load retention team

The safe movement of palletised loads is business-critical and often expensive. This dedicated team of engineers can carry out scientific audits of shrink film usage and machines to ensure safety and minimise costs.

Packaging regulations

Kite's compliance division (Kite Environmental Solutions) advises a huge range of member-customers helping them to understand, assess and comply with their obligations.

- *Advanced manufacturing engineering & design*
- *Packaging technologists*
- *7 RDCs covering UK*
- *Bespoke solutions*
