Corrugated Solutions

Our diverse corrugated offering is suitable for almost any and every packaging requirement customers might have.

Solid Board Boxes

- Boxes typically used to store paper-based products
- Composed of a collapsible box and lid
- Available in brown and white
- Supplied flat ready to assemble

Premium Klikstor Archive Boxes

- Strong, sturdy and extremely high quality boxes
- Assembled in seconds thanks to their unique design
- Features printed panels and hand holes
- Available as sets, bases and lids
- Re-useable as it's easily collapsible

Postal Tubes

- Used for printed materials, like posters and artwork
- Also suitable for long, thin items
- Range from A4 to A0 size, in a variety of thicknesses to protect heavier items
- All sizes come with plastic end caps

Triangular Postal Tubes

- Ideal for sending and protecting artwork, prints, plans and posters
- Delivered flat packed & no tape required - save storage space
- Unique shape makes them ideal for label scanning and sortation
- No plastic end caps making them environmentally friendly

Single Wall Boxes

Made with a single layer of fluting, this is the most popular corrugated box in the range. Lightweight and cost-effective, it is ideal for general purpose packaging, storage and dispatch.

Double Wall Boxes

Ideal when protecting heavy or fragile goods. These boxes are sturdy and hard-wearing, thanks to two layers of fluting. Commonly used for sending heavy items through a carrier or postal network, they are durable and have increased compression resistance.

Enviro-Boxes

Kite's Enviro-boxes out-perform the equivalent double wall box, but use less material. Developed by us in partnership with WRAP (Waste and Resources Action Programme), Enviro-box has a positive impact on the environment by:

- Reducing the amount of cardboard going to UK landfill
- Reducing the emissions used in manufacturing
- Reducing the CO₂ emissions in distribution

Paper Recycle Bin

- Separate paper products from general rubbish ready for recycling
- Quick and easy to assemble
- Made from strong double wall cardboard

Office Essentials

Printer Labels & Labels On A Roll

- Perfect for every day office use and for shipping and dispatch
- High quality multi-purpose labels to be used with suitable printers
- Easy peel & stick

Board Envelopes

- Our range includes brown board backed and white all-board envelopes
- Ideal for posting important documents that need to be kept flat and feature a secure peel and seal strip
- "Please Do Not Bend" message printed on brown board backed envelopes

Polythene Mailing Bags

- No.1 choice for e-commerce companies sending goods
- Low cost, good quality solution - for all applications
- Huge range, all with a peel & seal strip
- From standard grey to heavy duty white

Rubber Bands

- Ideal for binding and storing a range of items
- High latex content meaning they can be used over and over again
- Produced from natural rubber and are natural in colour

Document Enclosed Wallets

- Secures documentation
- Water-resistant
- Available as plain, or printed with the words "DOCUMENTS ENCLOSED"
- Available in a range of sizes

Arofol Envelopes

- The most popular in our range, available in white or gold and FSC approved
- Lined with high quality bubble material
- Strong paper outer - available in gold or white
- Suitable for posting, courier dispatch and general office use

Jiffy Aircraft

- General purpose, made with a coated paper outer
- Lined with high quality bubble material
- Strong paper outer
- Suitable for sending a range of goods by post

Grip Seal Bags

- Plain and write-on panel available
- Made from strong 45 micron material
- Huge range of sizes in stock

Jiffy Padded Bags

- Filled with macerated paper to trap air and provide cushioning
- Puncture and tear resistant

Refuse Sacks

- Suitable for both industrial and general domestic use
- Available in large or extra large in black, clear or coloured polythene, ideal for sorting waste
- Low density material gives premium strength and puncture resistance

Tapes

There is more to tape than you think, and this overview aims to help you decide which is right for you.

Standard packaging tapes can be identified in four ways:

- Material: Polypropylene or PVC/Vinyl
- Adhesive: Hot Melt, Solvent or Acrylic
- Width: 25mm, 48mm or 75mm
- The Core Size: 38mm and 75mm

48mm Standard Tape Dispenser

- Kite's economical option for 48mm wide tape only
- Sharp guarded steel blade to easily cut through tape
- Curved handle for a better grip

Solvent – For Cold & Ambient Temperatures

Kite offers polypropylene and PVC/Vinyl solvent tapes. Solvent adhesive has superior tack and works in both cold and ambient temperatures. The PVC/Vinyl carrier can be torn by hand, making this a highly versatile tape.

Hot Melt – For Chilled Environments

Vibac polypropylene tape is available with a hot melt adhesive. This tape is used where good adhesion in low temperatures is critical, such as in the chilled food industry, and unheated storage and warehouse conditions.

ONLY NEED SMALL QUANTITIES?

We offer our Acrylic tapes in packs of 6 rolls

Acrylic (Water-Based) – Our Branded Tape

Our Kite-branded acrylic tape is a general purpose tape, for use in ambient temperature environments. We also offer an alternative low noise version, ideal for busy warehouses where noise reduction is important.

FREE HAND DISPENSER
with every 10 boxes of tape

Envirotape – Our Best Value Packaging Tape

Suits a wide variety of uses. Available in both hot melt and acrylic adhesives.

- Envirotape has a smaller core with 150m per roll (more than twice the length of standard tape)
- Saves operating costs by having fewer roll changes and requires less warehouse storage space
- It is eco-friendly by reducing packaging waste (uses less cardboard) and CO₂ emissions during transit

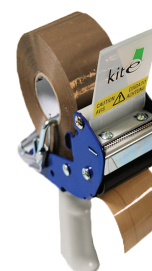

Premium Tape Dispenser

- For 48mm tape only on a 38mm & 75mm core size
- Retractable safety blade cuts only when the plate is pressed up against the surface
- Quick and easy loading mechanism

Universal Tape Dispenser

- To be used with our standard 66m packaging tape and our range of extra long 150m rolls of Envirotape
- Sturdy but lightweight with a comfortable grip
- Features a noise saver design & retractable safety blade for cutting tape

History and Ethos

Kite was founded from scratch in 2001 with a unique vision - To be the premier packaging supplier in the UK with a philosophy of employee-ownership. At Kite we believe that "customer satisfaction matters so much more when you own the business".

National Key Accounts

Kite has a dedicated team of senior key account managers who look after both single and multi-site accounts.

In-Box Team

Void fill/Dunnage is a complex area with pack velocity, cost, customer perception and the environment all critical factors. Our team can help and advise.

Load Retention Team

The safe movement of palletised loads is business-critical and often expensive. This dedicated team of engineers can carry out scientific audits of shrink film usage and machines to ensure safety and minimise costs.

Creative Pack Design Team

Kite's team will provide you with a range of bespoke solutions to suit your specific requirements. They specialise in pack re-design, focusing on benefits such as cost reduction, improved performance and protection, reduction in damages and reduced pack weight.

Packaging Regulations

Kite's compliance division (Kite Environmental Solutions) advises a huge range of member-customers helping them to understand, assess and comply with their obligations.

Aerospace & Defence Division - A member of ADS

Kite's MPAS accredited specialists will engineer solutions to protect, transport and store aerospace and defence products, primarily through the use of Solidworks software.
