# Powered by **employee share-ownership**, customer satisfaction matters so much more when you own the business.

Offering packaging solutions since 2001, customer satisfaction is the driving force at the heart of all Kite operations.

## Open your account today

Business credit accounts are available, subject to a satisfactory credit check, allowing you to benefit from up to 30 days credit

### To open a new account:

Do it online by selecting '**open an account**' on our website homepage. The process is straightforward, with your credit check completed and account opened on the day of application

Call our team on **02476 420065**

## Book a packaging audit today

Kite Packaging is the only UK packaging company that has the depth of resource to be able to offer full packaging audits through our:

**Compliance scheme** – packaging waste regulations

**Packaging technologists** – bespoke pack design and pack velocity

**In-the-box solutions** – protecting the product inside the box

**Pallet wrap division** – our specialist team for stretch wrap applications

Book your audit today: **02476 420065**

## Online ordering at [kitepackaging.co.uk](https://kitepackaging.co.uk)

### As a business customer of ours you can expect:

- Online demonstration videos
- Consistently low prices and discounts
- Online guides to help you choose the right product
- Wide range of products
- Credit account facilities
- Easy-to-use search features, such as our 'search by size' tool

## Award-winning packaging, **award-winning company**

As the UK's Packaging Company of the Year, we are dedicated to delivering the highest standards of excellence, innovation, and sustainability in packaging design.

Our award-winning solutions ensure your packaging needs are met with exceptional care and reliability. We understand that packaging is not just about the about protecting your products; it's about enhancing your brand's image and sustainability goals.

That's why our team of experts work continuously to bring you packaging solutions that not only safeguard your goods but also resonate with your environmental values. Partnered with our unwavering commitment to service, you can expect unparalleled customer support with every order.

# Love our planet, please use **less packaging**

Since our founding in 2001, we have championed ranges of enviro-products to minimise the impact of packaging on the environment. “Love our planet, please use less packaging” is proudly displayed on our vehicles, because we mean it. By reducing, reusing, recycling and replacing, we make a real difference to the packaging industry and planet as a whole.

## Reduce

We have a dedicated team of experts who carry out stretch wrap audits for our customers, assessing their current packaging usage and strategically streamlining the entire process, resulting in, often significant, plastic reductions. By incorporating our performance films, this is made even easier on account of their superior strength and resultant conservation of material

## Replace

At Kite, our paper based products are biodegradable, domestically or commercially compostable, offering sustainable alternatives to many popular products.

Our in-the-box team seeks similar aims with their audits, performing drop tests at every possible angle to determine the likelihood of an intact arrival. Breakages necessitate replacements, not only costing your company more money but also adding to your carbon footprint and consumption of materials.

## Recycle

Many of Kite’s plastic products comprise of recycled content to enable businesses to enjoy the lightweight, economic and functional benefits of the material without sacrificing their social responsibility to the planet. Typically, these products are also kerbside recyclable.

## Reuse

Despite plastic’s bad press, Kite’s reusable products can be highly eco-conscious thanks to their recycled content and extreme durability.

Corrugated boxes are cost-efficient, strong, and sustainable. Their high recycling rate maintains material integrity, conserving natural resources and supporting the circular economy.

### Standard cardboard boxes

- Sturdy single wall or double wall corrugation
- Some sizes are multi-scored, allowing you to reduce their height
- Available in brown or white

60-90% recycled content

Recyclable

### Enviro-boxes

- Reinforced single wall cardboard
- Equivalent strength to double wall boxes with less material
- 30% saving in CO<sub>2</sub> emissions compared to double wall boxes

60-90% recycled content

Recyclable

**75%**  
stronger than  
standard  
grade

### Double wall heavy duty boxes

- Suitable for removals, engineering parts & long-distance transport
- EB flute corrugation for durability
- Some sizes come multi-scored

60-90% recycled content

Recyclable

### Extra heavy duty boxes

- Our strongest corrugated boxes for heavy goods
- Performance data available for each size
- Popular alternative to triple wall boxes

60-90% recycled content

Recyclable

### Handle with care boxes

- Extra strong double wall cardboard
- "FRAGILE Handle with Care" printed on two sides
- Tape down bottom and top flaps to seal

60-90% recycled content

Recyclable

## BDC & BDCM boxes

- Industry standard sizes for Bulk Distribution Cartons and Bulk Distribution Carton Metric
- Printed text and spaces on one side for important information

♻️ 60-90% recycled content

♻️ Recyclable

## Archive boxes

- Two designs available: integrated lid or premium
- Printed panels for notation information
- Hand holes for comfortable carrying

♻️ 60-90% recycled content

♻️ Recyclable

## Corrugated storage bins

- Aids organisation of picking areas and pack stations
- Folding design, no glue or staples required
- Printed panels to clearly label contents
- Flat-packed for convenient storage

♻️ 100% recyclable

## Magnetic gift boxes

- Magnetic snap-shut closure
- Available in matte black, white and kraft brown
- Flat-packed with easy assembly
- Made with recycled paper

♻️ Recyclable (without magnet)

♻️ Biodegradable (without magnet)

## Picture frame boxes

- Telescopic style box for adjustable fit
- Strong double wall cardboard
- Kraft paper outer for puncture and tear resistance

♻️ 100% recyclable

## Cardboard boxes

## Protection For Every Bottle

### Box with divider

Double wall box constructed with a BC flute, ideal for storing and transporting large volumes.

100% recyclable

### Pinch top box

Designed by Kite, it is a perfect addition to our Flexi-Hex bottle protection.

100% recyclable  
Biodegradable

### Bottle carrier

Integrated handle allows for safe transportation.

100% recyclable

### Timber Box

High-quality timber from sustainably sourced resources.

Fully reusable

### Flexi-Hex

- Robust protective design
- Cost-effective and efficient
- Adaptive sizing

Biodegradable  
100% recyclable

### Air shock bottle pouches

- Excellent shock absorption
- Lightweight and easy to inflate
- Space-saving and eco-friendly

30% recycled content  
Reusable

### Corrugated sleeves

- Highly versatile
- Simple yet efficient design
- Customisable length

Biodegradable  
100% recyclable

### Boxes and dividers for cans

- 12 & 24 can box for 330ml & 440ml cans
- 0201 boxes with R flute corrugation
- Universal divider for 440ml cans
- Intuitive assembly in seconds

Recyclable  
Biodegradable

**Circle labels**

- Available in clear and white colour
- Permanent adhesive
- Ideal for arts & crafts, e-commerce, and more

**Hazard warning labels**

- A range of standard printed self adhesive labels
- Supplied on a roll, with 76mm core and hotmelt adhesive

**Integrated labels**

- Eco-friendly, minimising paper waste
- Fully customisable
- Time and money-saving
- Streamlines packing and enhances efficiency

**Postal tubes**

- Available in triangular, round, and square
- Strong and durable
- Suitable for a wide range of delicate goods

Recyclable

**Cold seal**

- Self-sealing corrugated rolls
- Create custom mailers for awkwardly shaped goods
- Single face corrugation
- 600mm and 1200mm rolls

Recyclable Biodegradable

**1. Capacity mailers**

These expandable corrugated mailers are perfect for goods of various sizes.

Fully recyclable Biodegradable

**2. Book wrap mailers**

All sizes feature a peel-&-seal strip which provides excellent security.

Fully recyclable Biodegradable

### Void fill

Void fill and cushioning packaging sits inside a box and serves to prevent internal movement, consequently minimising collisions and opportunities for damage.

### Our in-the-box solutions team

Our dedicated in-box solution packaging engineers have developed and maintained some of the most innovative packaging systems in the UK. They work with businesses to find savings through automation and increasing pack velocity.

The range offered includes paper systems, Kite's Mini Air System, Kite's range of Air Shock and Wrap & Hold. Each of these systems provides protection for a range of products, and our engineers will guide you through each step of the process, providing tailored solutions most suited to your operation.

### What do our in-box solutions team focus on?

#### Pack cost analysis

Available to new and existing customers, our team of specialists will visit your site and run an in-depth cost analysis of your current products versus proposed products to find you the most cost effective and efficient solution.

#### Pack velocity

Our teams work closely with customers on pack design and pack velocity to demonstrate how the two go hand in hand. They will specifically focus on the price of each box, the time to assemble and the labour cost per pack.

#### Drop test

Our team has access to facilities for conducting packaging testing to the International Safe Transit Association (ISTA) standard. By demonstrating drops from the 'design drop height' for our proposed packaging, we can show to you how your products will be protected even at their most vulnerable times.

### SpeedMan Box

- Highly economic manual paper void fill system
- Prevents movement within a box
- 100% recycled 70gsm paper

Fully recyclable Biodegradable

### SpeedMan Classic

- Floor stand or bench clamp varieties to best suit your packing station
- High-quality manual paper dispensing system
- Funnel feature enables a smoother operation

### SpeedMan Pro

- Semi-automatic paper machine with hands-free foot pedal
- 100% recyclable 70gsm paper in brown and white
- Adjustable speed settings for scalable packing
- Available with a floor stand, bench clamp or arm bracket

### SpeedMan Flex

- The semi-automatic paper system dispenses at an extremely rapid rate
- Easily integrates into workstations, and is space-saving
- Operates by foot pedal and dispenses up to 2.8 metres of paper per second

### Paperjet

- Twice the dispersion efficiency of any other UK paper cushion machine
- 'Program' and 'series' modes grant expert control
- Unrivalled packing efficiency for high volume operations

### Paperjet Fit

- Features an automatic paper intake function
- A space-saving system designed with reduced dimensions for compactness
- Produces narrow, extra-strong padding varying lengths of 10cm to 500cm

### SpeedMan Basic

- Small footprint suits tight spaces and integrates smoothly into any setup
- Operates with a foot pedal for intuitive and quick use
- Adaptable to different frame configurations and shelf positions

## Hivewrap

100% paper

A sustainable alternative to bubble wrap.

**Available in:**

-  Brown
-  White
-  Black

1x 500mm hivewrap roll

4x 500mm small bubble roll

- Space-saving
- Paper alternative
- Fully recyclable & biodegradable
- Cost-effective
- Hive shaped cells firmly interlock

Single dispenser

Multi dispenser

Hivewrap auto

Wooden hivewrap dispenser

## Wooden hivewrap dispenser

-  Recyclable dispenser
-  100% timber wood

Made from sustainably sourced timber, our dispenser is designed for enhanced efficiency of dispensing hivewrap paper.

## Void fill & cushioning

### Wood wool

- Made from shredded timber
- Keeps items safe and secure during transit and storage
- Offers a natural yet high-end visual finish

Biodegradable

### Tissue paper sheets

- Acid-free and chlorine-free
- Highly aesthetic gift wrap
- Available in machine finished and machine glazed

Fully recyclable Biodegradable

### Tissue paper rolls & dispenser

- Manual dispenser system increases efficiency
- Ideal for wrapping, packaging, crafts, and gifts
- Produced from sustainably managed forests

Biodegradable Fully recyclable

### Large Flexi-Hex sleeves

### Flexi-Hex

- Honeycomb structured sleeving to protect glass bottles, ceramics or homeware
- Hexagonal design grants incredible strength and flexibility
- 85% recycled content

Fully recyclable Biodegradable

### Flexi-Hex bottle sleeves

Mini Air machines produce air cushion packaging on demand for void fill, wrapping, interleaving and more. All volume requirements are covered by these systems. There is a choice of 12 different films along with a range of accessories.

### Mini Air Easi

- Entry-level system
- Produces 100% recyclable packs
- Runs up to 8m of film per minute
- Air cushions can fill voids, interleave, layer or wrap

### Mini Air Pro

- Advanced-level system
- 100% recyclable films
- Minimal maintenance with self-adjusting temperature
- Able to run up to 32m of film per minute

### Mini Air Paper

- 100% recyclable, biodegradable and compostable kraft paper cushions
- A plug-and-play system
- 1,000 cushions per roll

### Enviro air cushions

- Made with paper & starch-based sealant
- Eco-friendly wrapper quilt & filler
- Inflate on demand

Fully recyclable Biodegradable

### Filler cushions

- Cushions to be inflated with a Mini Air machine
- Provides cushioning void fill
- Strong alternative to loose fill

**100%**  
Recyclable

### Wrapper quilt

- Cushioning pad to be inflated with a Mini Air machine
- Quilted texture for increased flexibility
- Mould around products for impressive protective qualities

**100%**  
Recyclable

# Air Shock

Revolutionise the future of protective packaging

Made from transparent LDPE material, air shock is an advanced void fill packaging solution that provides the ultimate protection during transit.

 360° protection  Recyclable

## Effective shock absorption

Designed to withstand tears, absorb shock and prevent damage.

## Lightweight and transparent

98% of the pouch content is air once inflated.

## Highly versatile

Ideal for various delicate items like bottles, ceramics, electronics, and more.

## Isolated air chambers

Ensures content remains intact if a chamber bursts.

## Cost-effective

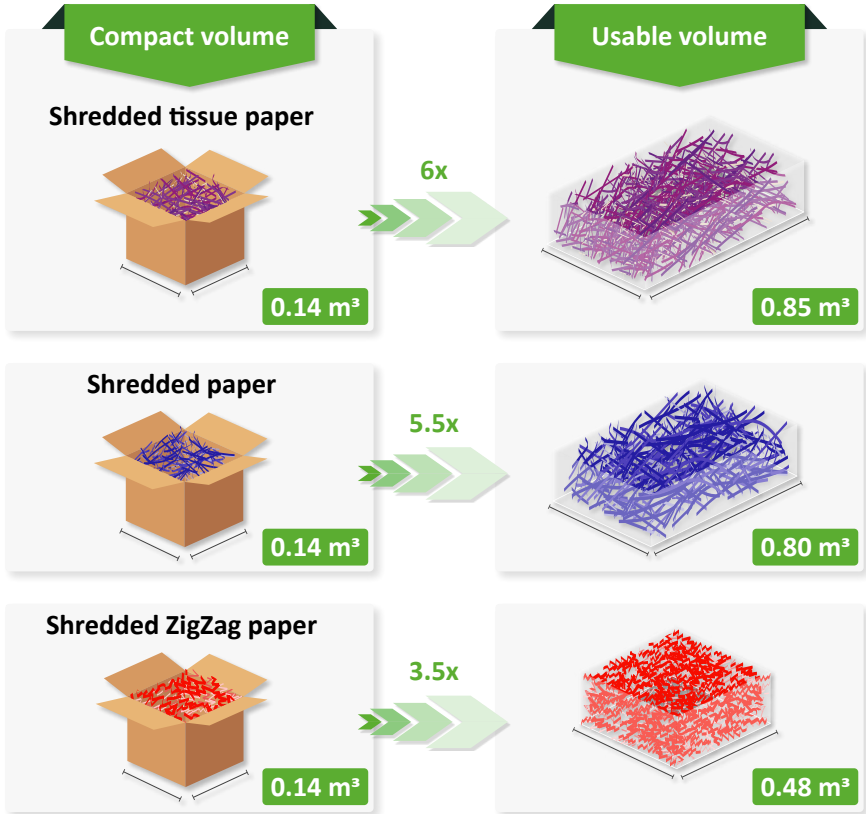

Reduces the need for additional packaging materials.

[See full range on our website](#)

## Shredded paper

Available in three different styles and a spectrum of attractive colours, our shredded paper void fill range provides a premium appearance paired with protective qualities and sustainability. Each product is fully recyclable and biodegradable.

### Looking for more colours?

Call **02476 420065** or visit [shredhouse.co.uk](http://shredhouse.co.uk) to discover a huge range of colours for your brand.

Available in **2** colours

**Shredded tissue paper**

- Luxurious display packaging tailored toward beauty, retail and gift sectors
- Adds protection to lightweight objects
- Made from sustainably sourced paper

Biodegradable Fully recyclable

**ShredPak 2mm shredded paper**

- 70-80gsm paper, straight cut shreds
- Visually pleasing and protective void fill
- Available in 4kg bales or 10kg boxes

Biodegradable Fully recyclable

Available in **9** colours

Available in **21** colours

**ZigZag 4mm shredded paper**

- Aesthetically attractive gift packaging
- 70-80gsm strong kraft paper
- Interlocks to create a dense pack

Biodegradable Fully recyclable

**Shredded papers go perfectly with our hampers!**

**Wicker hamper basket**

Looking for stylish, eco-friendly gift packaging that reflects your business's commitment to sustainability? Our wicker hampers are perfect for presenting gifts responsibly.

Handcrafted from split willow

Buckled straps ensure secure closures

Vegan leather hinges and straps

**Kraft hamper tray**

Our cardboard hamper trays are made from sustainably sourced materials and are kerbside recyclable, promoting responsible disposal by the end user.

Recyclable Sustainably sourced

## Vermiculite

- Versatile solution with several non-packaging applications
- Highly absorbent for packing products that may leak
- Mineral-based natural loose fill
- Eco-friendly alternative to polystyrene chips

Biodegradable

## EcoFlo starch loose fill

- EcoFlo fill is 100% compostable
- Fully soluble when saturated in water
- Independently verified as offering better impact protection than polystyrene

Biodegradable Compostable

## Premium polystyrene loose fill

- Made from 70% recycled content
- Moisture resistant for optimum performance
- Perfect for filling voids and protecting a range of products

Recycled content

## Bubble wrap

- Available in small bubbles or large bubbles
- Retail, premium, easy tear and Jiffy varieties
- Popular method of cushioning products during transit
- Available in small, large, and anti-static varieties in 15, 10 and 3 sizes respectively

## Paper bubble

- 100% recycled and recyclable paper
- Eco-friendly alternative to bubble wrap
- Deep indentations to make it the strongest product of its type

100% recycled Recyclable

**Paper dunnage bags**

- Inflate and deflate within seconds
- Stabilise, secure and protect goods during transit
- Outer kraft paper bag provides high tensile strength
- Each bag is subject to quality control testing

- ♻️ Recyclable
- ♻️ Reusable
- 💰 Cost-effective

### Which carrier (tape material) should I use?

Different carriers react uniquely with different adhesives, making the carrier an important consideration when selecting the right tape for your requirements.

Polypropylene is strong, durable and tear resistant. Often transparent, this type of carrier has been a trusted industry standard for many years.

Polypropylene PVC alternative boasts the same reliability while being able to be torn by hand for rapidity during the packing process.

## Which adhesive is right for my needs?

Kite supply tapes that use one, or a combination of, four powerful adhesives:

### Hot melt

For exceptional adhesion, flexibility and a quick, high initial tack, a hot melt tape performs well. It is advised for use in temperatures between +15 and +65C.

### Solvent

Solvent provides the best performance in extreme temperatures of -25 to +50C and stays sticky in damp or humid conditions. By quickly forming a strong, durable bond, solvent tapes are reliable for long-term carton sealing alongside other diverse applications.

### Acrylic

Acrylic performs well in a large range of temperatures, operating between 0 and +65C. Moreover, it is resistant to ageing, weathering, sunlight and discolouration, making it a popular presentation tape with excellent clarity and long-lasting holding power.

### Starch

Our most eco-friendly offering is starch, a natural adhesive with incredible strength. When used in partnership with our paper carrier, the tape bonds with box fibres to create a seal that is virtually impossible to tear off once applied.

## Love our planet, choose paper

Paper is the most sustainable carrier currently on the market by being fully recyclable if not reinforced with other components.

### Coloured tape

- General purpose polypropylene tape with acrylic adhesive
- Available in red, green, white or blue
- Adds recognisable branding to packages

### Standard warning tape

- Available in polypropylene, paper and PVC
- Choice of four clearly printed messages
- All tapes low-noise, perfect for busy warehouses

### Crossweave tape

- Reinforced glass fibres for extra tensile strength
- High tack strapping tape with high tear resistance
- Suited to heavy duty use and security sealing

### Masking tape

- Moisture resistant
- Easily removed with no adhesive residue
- Will stay in place for up to 14 days in sunlight

### Duct tape

- Durable and tears easily
- Able to adhere to virtually any indoor or outdoor surface
- Offers excellent versatility

### Tamper evident tape

- Strong, durable, resistant to breakage
- Cost-effective security assurance solution
- Deterrent against tampering

### Gummed paper tape

- Suitable for e-commerce and fulfilment operations
- Ideal for both hot and cold conditions
- Enhanced strength and security

## Looking for custom tape?

Visit [kitepackaging.co.uk](http://kitepackaging.co.uk)  
and design your own custom tape  
to enhance your brand!

 [Design your tape today](#)

Use table below to find out more about the types of tape, and choosing the right one for your application.

Type	Length	Width	Core diameter	Total tape thickness	Carrier	Adhesive	How to identify
Kite premium acrylic 	66m	25mm, 48mm, 75mm	76mm	45 micron	Polypropylene	Water-based acrylic	Sweet smell, glossy, does not tear
Hot melt	66m	25mm, 48mm, 75mm	76mm	45 micron	Polypropylene	Hot melt	Burnt plastic smell, glossy, does not tear
Low noise acrylic 	66m	48mm, 75mm	76mm	48 micron	Polypropylene	Water-based acrylic	Sweet smell, glossy, does not tear, quiet off roll
Kite low noise easy tear 	66m	48mm	76mm	50 micron	Polypropylene	Water-based acrylic	Sweet smell, easy tear, low noise
Enviotape acrylic 	150m	48mm	38mm	45 micron	Polypropylene	Water-based acrylic	Sweet smell, glossy, does not tear, small core
Enviotape PET (polyester) 	150m	48mm	38mm	33 micron	PET (polyester)	Hot melt	Burnt plastic smell, thin feel, does not tear
Self-adhesive paper tape	50m	25mm, 38mm, 50mm, 75mm. *48mm (white tape only).	76mm	130 micron	Paper	Natural rubber (performs like solvent)	Rough texture, sticks to itself
Reinforced paper tape	50m	48mm	76mm	150 micron	Paper	Hot melt	High tack, reinforced filaments
Gummed paper tape	150m	50mm, 70mm	38mm	90 micron	Paper	Starch	Paper texture, easy to tear
Reinforced gummed paper tape	100m, 305m	50mm, 70mm	38mm	Various	Paper	Starch	Paper texture, reinforced filaments

## Standard tape dispenser

- Available in models compatible with 48mm or 75mm wide tape
- Equipped with steel guarded blade

## Universal tape dispenser

- Compatible with standard 66m tape and extra long 150m rolls of Envirotape
- Fits any core size
- Easy-loading mechanism and noise saver design

## Premium tape dispenser

- To be used with 48mm tape on a 38mm or 75mm core size
- Retractable safety blade
- Easy-loading mechanism and noise saver bar

## Desktop tape dispenser

- Can be used with any 25mm tape rolls
- Available in standard or premium styles
- Increases efficiency while being weighted for safety

## Discover our range of gummed paper tape machines

### Handheld gummed paper tape dispenser

- Compact, ergonomic design reduces hand fatigue
- Uses strong, water-activated, 100% recyclable tape
- Only compatible with standard 50mm x 50m rolls

### Manual gummed paper tape dispenser - Curby

- Manually operated tape dispenser
- Easy push down dispensing
- Ideal for light to medium volume use

### Electronic gummed paper tape dispenser

- Range of manual and electronic dispensers available
- Basic to premium models for small to large operations
- Programmable lengths possible for high efficiency

### Premium electronic gummed paper tape dispenser

- Moistens, cuts & dispenses tape
- Automatic one-touch dispensing
- Large water tank
- Ideal for high volume use
- Use with Venom reinforced tape

From single packs to bulk purchases, we have highly competitive prices and all our products can be ordered on a next day delivery basis.

### String handle gift bags

- 250gsm paper sourced from sustainably managed forests
- Fabric handles for comfort and elegance
- Flat-packed for easy and convenient storage

Recyclable Biodegradable Reusable

### Glassine paper bags

- 100% paper alternative to polythene bags
- Translucent, moisture resistant material
- Available in 5 sizes

100% recyclable Biodegradable

### Twist handle paper carrier bags

- Strong, block bottom base, gusseted side bags
- Available in medium duty and heavy duty kraft and white sulphite paper

100% recyclable

### Block bottom paper bags

- 70gsm brown Kraft paper material
- Gusseted with a block bottom
- Available in a range of sizes

100% recyclable

### Tape handle paper carrier bags

- 80gsm sustainably sourced Kraft paper
- Available in brown or white
- A range of sizes suitable for various purposes

Recyclable

### Strung paper counter bags

- Multi-use, single ply paper bags
- Ideal for groceries, confectionery, hardware, and more

Recyclable Cost-effective

## Open top polythene bags

- Light, medium, heavy and extra-heavy duty available with differing microns and sizes
- Protects items requiring optimal hygiene including food and clothing
- Able to be heat sealed for best sanitation results

Light duty

Medium duty

Heavy duty

Extra heavy duty

## Grip seal bags

- Keeps contents in pristine condition
- Available in medium and heavy duty
- Convenient grip seal fastening
- Write-on-panel option available

## Zip lock bags

- Lightweight, reusable polythene bags
- Zip lock closure for greater security
- Available frosted or clear

## Anti-static bags

- Protects non-sensitive components from static build-up
- Grip seal or open top style
- Economic and reusable

## Metallised shielding

- Faraday cage protection from static charges
- Protects sensitive items, particularly electronics
- Grip seal strip for easy closure and reusability or open top

## Document wallets

- Available in 100% paper, or plastic
- Water resistant
- Presents and protects important documentation from external factors

## FIBC & bulk bags

- Highly versatile and flexible containers
- Bags are reusable and easy to store
- Ideal for storing and transporting powders, granules and aggregates

 Recyclable     30% recycled content

### Bags available in 6 styles

1. Bulk bag
2. Bag with tunnel loops for forklift
3. Bag with fill spout
4. Bag with top skirt and discharge spout
5. Jumbo with top skirt and discharge spout
6. Baffle bag with fill spout and discharge spout

**Easy handling** and lifting with **tunnel loops**

**Efficiently** regulate flow of materials with **top skirt and discharge spout**

**Coveniently** fill bag with **no spillage** using **fill spout**

Visit [kitepackaging.co.uk](http://kitepackaging.co.uk) to see our full range of polypropylene and polythene bags

## Rubble sacks

- Also known as 'builders sacks'
- Produced from strong LLDPE
- Popular in building, landscaping and construction industries

## Refuse sacks

- Suitable for industrial and domestic use
- Available in a range of colours and sizes
- Light, medium, heavy and extra-heavy duty options

We stock a selection of high quality devices used to seal polythene and plastic pouches, producing customisable and secure packaging.

### Heat sealers

#### Handheld heat sealers

- Portable and lightweight
- For occasional use

#### Standard heat sealers

- Available with or without cutter
- For low volumes

#### Industrial heat sealers

- Integrated cutter
- Adjustable sealing time to suit different materials
- For higher volumes

#### Heavy duty heat sealers

- Integrated cutter
- Available with a foot pedal for semi-automation
- For high volumes

Visit [kitepackaging.co.uk](http://kitepackaging.co.uk) to see our full range of heat sealers and shrink film systems

#### Layflat tubing

- Sold as one continuous tube for customisable lengths
- High tear resistance
- Secured with a heat sealer, ties, staples or tape

#### Heat shrink gun

- Desktop heat shrink gun for secure, protective wrapping
- Protects items from moisture, dust, and tampering
- Temperature 600°F- 1000°F

#### I-bar sealer

- Suitable for up to 800mm wide layflat tubing & shrink film
- Creates water & air tight seals
- Weight 15kg
- 700w output

#### Polyolefin shrink film

- 15 micron thick (60 gauge)
- High clarity point-of-sale packaging
- Contains no strong chemicals
- Suitable for food use

Recyclable

### Vacuum pouches

- 65 micron thick with a variety of sizes
- Strong, co-extruded material
- Food grade and suitable for use in the medical industry

### Vacuum chamber

- Choice of desktop and free-standing models
- Removes air from inside a pouch
- Preserves and protects items from air and moisture
- **Shelf life extensions** by removing oxygen (the main causes of metal corrosion and food spoiling)
- **Saving space** by compressing soft goods and products to reduce pack size

### Vacuum sealers

- Removes air from inside a bag before sealing
- Use in conjunction with vacuum pouches
- Bags are placed outside the machine

### Vacuum machine & embossed bags

- Compact, low-cost vacuum machine and heat sealer
- Works well with embossed bags for extra internal friction
- Integrated guillotine and various settings

Shrink Hood Machine

Semi-auto

### Shrink hood machines

- Multi-purpose shrink and seal machines
- All versions feature a roller mechanism compatible with multiple different films
- Four systems available suitable to differing product sizes

Heat shrinking helps secure pallets for transit and is suited to very large items. By using our range of pallet shrink covers, shrink film and tubing in conjunction with our heat shrink guns and accessories, you can be sure to protect items from dust, dirt and extreme weather conditions while stabilising your products.

### Polythene (PE) shrink film

- 120 micron thick with wide lengths from 2000m – 4000m
- Centre folded sheet on a roll
- Ideal for wrapping bulky goods and irregular pallets

### Pallet shrink covers

- Gusseted pallet covers
- 100 micron high strength blend
- Activated with our Pallet Heat Shrink Gun

30% recycled content

### Ripack 2100 gun

- Cool nozzle technology to reduce burning risk
- Large flame for increased efficiency
- Supplied with hose, regulator and tools in heavy duty case

### Kite Packaging heat shrink gun

- Our best value heat shrink gun
- Ergonomically designed to fit comfortably into the user's hand
- Supplied with hose and regulator

### Ripack 3000 gun

- 360 degree rotating nozzle
- Cool nozzle technology
- 15% more powerful than Ripack 2100

### Ripack extension wands

- Compatible with Ripack 2100 & 3000
- Excellent for heat shrinking pallets or products that sit out of reach
- Five lengths available from 570mm–2030mm

### Gas cylinder trolley

- Capacity to hold 11-47kg gas cylinder bottles
- Attached hook to carry heat shrink gun
- Heavy duty rubber wheels for stability

### Roll dispenser

- Heavy duty mobile dispenser
- Suitable for any product that is perforated on a roll
- Available in 1500mm and 2000mm widths

Bundle offers available on website

### Bundle 1

### Bundle 2

## Polypropylene strapping

- Best suited to light and medium duty applications
- Embossed along the length to prevent splitting
- Efficiently bundles, unities and palletises goods

**80%**  
Recycled

## Polyester strapping

- Often used in brick, lumber and textile industries
- Very strong, heavy duty strapping
- Excellent tension properties

  
Recyclable

**97%**  
Recycled

## Steel strapping

- Our strongest ribbon wound strapping
- Oscillated with high tensile strength for heavy loads
- Commonly used in building and construction

  
Recyclable

## Corded strapping

- Lighter, more flexible alternative to steel
- Stronger than standard polypropylene and polyester
- Used for securing heavy loads

## Bale strapping

- Strong, safe alternative to bailing wire
- Extremely secure and lightweight
- Coil designed to fit most popular makes of compactors/balers

## Paper strapping

- Designed for use on semi-automatic machines
- Suitable for stabilizing small parcels
- Quick and easy to handle
- 80kg break strength

   
Biodegradable Recyclable

## Which one is right for you?

Type of strapping	Breaking strain kg	Elongation	Seals	Can be used with a friction weld tool?
Polypropylene	110 - 300	High	Plastic & steel buckles	Yes
Steel	600 - 900	Low	Steel snap-on	No
Polyester	270 - 440	Low	Serrated metal	Yes
Corded	370 - 440	Medium	Steel buckle	No
Bale	280 - 380	Medium	N/A	No
Film	33	Low	N/A	No
Paper	13	Low	N/A	No

Visit [kitepackaging.co.uk](http://kitepackaging.co.uk) to see our full range of strapping tools and equipment

## Strapping combination tool

- Tensions, seals and cuts strapping
- Heavy-duty use
- Compatible with snap-on seals

## Strapping sealing tool

- Easy to use robust sealer for snap-on seals
- For use with a steel strapping tensioner
- Double notch seal
- Easy grip handles

## Strapping pusher tensioning tool

- Works with irregular & flat packages
- Use with closed seals
- Compatible with 13-19mm steel strapping

## Cutter for steel & polypropylene strapping

- Carbon steel & PVC handle for grip
- Lightweight and durable
- Easy to use
- Ideal for steel & PP strapping

## 9-16mm economy GT cordless friction weld tool

- Ideal for polypropylene and polyester strapping
- Combines quality with affordability

## 13mm cordless hurricane friction weld tool

- Perfect for medium & heavy loads
- Ideal polypropylene and polyester strapping
- Simple and easy to use

## 9-16mm Viper cordless friction weld tool

- Effortless usability with touch display
- Enhanced tension speed control
- Ideal for polypropylene and polyester strapping

## 10-16mm GT-ONE+ cordless friction weld tool

- Perfect for medium & heavy loads
- Ideal polypropylene and polyester strapping
- Simple and easy to use

## Security seals

- Manufactured from strong polypropylene
- Unique sequential numbering for identification

## Cable ties

- Made from strong nylon plastic
- Easy application
- No metal barbs or cumbersome wedges

## Seals & buckles

- Galvanised metal and plastic strapping seals used to secure strapping
- Enforces appropriate strap tension

### Strapping kits

Kite offers cost-effective and ready-to-go strapping kits. We supply both standard and heavy-duty strapping kit options, including a range of tools for tensioning and sealing as well as dispenser and trolley units to provide added efficiency for the operator.

Corded polyester

Polypropylene

Steel

Polyester

### Semi-automatic strapping machine

- Automatic tension and sealing
- Improved operational efficiency
- User-friendly operation
- Requires very little maintenance

Polypropylene strapping

### Semi-automatic banding machine

- Adaptable to various package sizes
- User-friendly operation
- Durable and reliable
- Versatile tape application

Paper or film strapping

5000kg  
break strength

### Ratchet straps

- Polyester webbing provides strength, durability & weather-resistance
- Long-lasting, reusable, and economical
- Lightweight, flexible, and easy to store
- J hook attaches effortlessly to anchor points

### Single face corrugated rolls

- Corrugated fluting on one side with a smooth reverse
- Offers protective cushioning against impact

100% recycled content Recyclable

### Cardboard fanfold

- Bespoke packaging on demand
- C flute corrugation provides crush resistance & stacking strength
- Ideal for businesses dealing with products of various sizes

Fully recyclable

### Ribbed kraft paper

- 70gsm and 90gsm paper, 100% virgin material
- Light to medium duty for wrapping fragile items

100% recyclable Biodegradable

### Corrugated sheets

- Available in single and double wall corrugation
- Half Europa, Europa & container sizes
- B and BC flutes

### Greyboard sheets

- Available in 6 sizes
- Made from 650gsm paper
- Contains recycled content

100% recyclable

### Round corner layer pads

- R flute corrugation for max strength
- Available in Half Europa, Europa & container sizes
- Made from recycled paper

## Paper rolls:

### Waxed kraft paper

- Heavy duty paper with a wax finish on both sides

### VCI (Volatile Corrosion Inhibitor) paper

- Designed to protect metal from rust and tarnish

### Pure kraft paper rolls

- Sustainably sourced wrapping material

### Recycled paper rolls

- 100% recycled plain brown packing paper

### Kraft union paper

- Two laminated kraft layers with bitumen centre

### Timber cases

- Sustainably sourced 6mm plywood
- Built for extremely heavy or highly fragile products
- Supplied flat packed with hinged walls
- ISMP15 compliant

### Attached lid containers

- Recycled plastic content in every size and design
- Stackable and nestable
- Versatile and robust

100% recycled Reusable

### Plastic pallet boxes

- Reusable end-to-end transit system
- Stackable and nestable for optimal space conservation
- Use with forklifts, pump trucks and pallet box lifters

Recyclable Reusable

### Bale arm crates

- Easily nestable and stackable to conserve space
- Extendable and retractable bale arms for ease of transportation

100% recycled Reusable

### Steel pallet stillages

- Highly robust steel stillages
- Available fully enclosed, open fronted, with a half drop side or detachable sides
- Post pallets and chute pallets also available

From durable wooden pallets to lightweight nestable and rackable plastic pallets, and eco-friendly presswood pallets, we have the perfect solution for your logistics requirements.

### Presswood pallet

- ISPM15 compliant
- Lightweight, cost-effective, and easy to handle
- Nestable design conserves space during storage and transit

100% wood Reusable

### Wooden pallet

- Crafted from strong timber for reusability
- Heat treated for ISPM15 compliance
- Features four-way forklift or pallet truck entry

Recyclable Reusable

### Nestable plastic pallet

- Durable, lightweight, and cost-effective
- Impressive dynamic capacity for goods protection
- No compromise on functionality or affordability

100% recycled Reusable

## Cardboard pallet boxes

- Pallet boxes designed for heavy items in transit
- Easily collapsible for easy storage
- ISPM15 compliant
- Available in different strengths

200KT fluting

600AC fluting

### Half Europa

600 x 800 x 900mm

### Europa

1200 x 800 x 900mm

### UK Container

1200 x 1000 x 900mm

## Stretch wrap audit

Our team of dedicated pallet wrap specialists work in close partnership with customers, sourcing innovative solutions which are designed through scientific analysis for retaining and stabilising loads whilst delivering cost savings.

## Hand pallet wraps

Applied either by hand or using a dispenser for increased efficiency, our range of hand films are available with varying cores, thicknesses and colours.

An **extended core** allows the user to hold the 65mm of exposed cardboard ends to wrap film quicker and easier. A **flush core** does not have this excess at each end, instead the film fits flush to the end of the core. Coreless films omit the cardboard core entirely for an eco-friendly option that is loaded onto a reusable dispenser.

Micron differences cater toward different applications: heavier or more abnormal pallets that may protrude, for example, will require a thicker film while lighter, regular pallets can use wrap comprised of fewer microns.

Eco-friendly options available

Up to **30%** recycled content

### Cast

Greater transparency, enabling barcodes/labels to be easily read. Extremely good tear resistance with a very consistent cling.

### Blown

Very high puncture resistance and ideal in dusty and cold temperatures (-32C) due to it being very tacky. It offers excellent load stability.

## Mini stretch wrap

Measuring 100mm (width) x 150m (length), great for bundling small loads and available in black, clear, red or printed in 15 and 17mu.

### Available in:

Black

Clear

Red

## Hand pallet wrap selection tool

Machine stretch film

## Pallet wrap & stretch film

[kitepackaging.co.uk](http://kitepackaging.co.uk)

### Standard pallet wrap dispenser

- Designed for faster, smoother and less stressful wrapping
- Comfortable handles
- Twist grip handle secures rolls and allows tension adjustment while wrapping

Easy to use Economical

### Premium pallet wrap dispenser

- Load films in less than 10 seconds
- Foam handles ensure comfortable, natural grip
- Perfect for repeated use in demanding environments
- Designed for ease and efficiency

Fast loading Heavy duty

### Premium carbon fibre dispenser

- Optional magnet for easy storage
- Core locator for easy loading
- Ergonomic design for reduced risk of injury
- Weighing 450g, this dispenser minimises strain

## 5x5 SYSTEM

### Enhanced comfort and efficiency

- Provides machine technology in the hand
- Pre-stretch gears release film at optimum elastic point
- Pallets are less likely to collapse during transit

less stress on the body

reduced plastic usage

## Machine pallet wraps

Kite also supply a selection of films suitable for use with our manual and automated machines, granting high volume, consistent, continuous wrapping with savings of up to 50%. This stems from the increased elongation that can be activated when film is applied by a machine rather than by hand, reducing material usage.

The Bio film product enhances our eco-friendly options further. Available as either a hand or machine film, it is made from sugar cane and hence its raw material is carbon neutral. With a 17 micron thickness and 250% elongation, it exhibits the same strength as its oil-derived counterpart.

Coloured stretch films have specialised uses and can similarly be supplied as either machine or hand film:

- White film grants UV protection and is commonly used for security.
- Blue film identifies the contents as food.
- Black film is used to indicate high security.

## Machine pallet wrap selection tool

We offer a range of systems, including a manual machine, turntable pallet wrappers and robot stretch wrapping machines to cater to businesses of all sizes.

**Turntable**

### **Turntable pallet wrap machines**

- Entry level to advanced options with low profiles available
- Enables maximum wrapping efficiency
- Provides consistency for uniform pallets
- Range of accessories to tailor toward needs

### **Low profile**

- 60% reduced ramp thickness compared to standard
- Available in Masterplat and Rotoplat
- Allows easier movement of products onto the machine

**Space saving**

**Easy loading due to thinner ramp**

**Load from every angle**

**New disk rolling system**

**Rotating arm**

### **Fully automatic turntable machines**

- Variable pre-stretch up to 400%
- Can wrap 100+ pallets per day

### **Robot machines**

- Flexible mobile machines for efficient wrapping
- Supports all types of loads, even abnormal shapes
- Three specifications available
- Operated via a digital control panel

**Robotic**

### **Fully automatic turntable machines**

- Variable pre-stretch up to 400%
- Can wrap 100+ pallets per day

To facilitate efficient production within a packroom, Kite can supply packing stations, alongside a range of practical tools and devices to streamline tasks.

### Compact packing benches

- Produced from powder coated steel and MFC melamine faced chipboard worktop
- Shelving version available with two roll holders

### Custom packing benches

- Personalised to suit your packing requirement
- 40mm box steel, welded together to ensure maximum strength and durability

NEW

## On-the-go power anytime, anywhere

### Mobile rechargeable workstation

- Battery-powered bench that can be wheeled easily to any workspaces
- Handles and front swivel castors with brakes for control and easy movement
- Integrated cable management for tidy operations

### Nexus escape power inverter

Power multiple devices up to **500W!**

**220-240V**

Output voltage & frequency

With 12.0Ah Battery

## Plastic nestable pick bins

- Suitable for storage and organising work areas
- Lowered front for easy access
- Nestable and stackable

100% recycled Reusable

## Cupboards

- CoSHH. Hazardous substances and first aid cupboards available
- All comply with relevant regulations

## Shelf trucks

- Economy shelf can hold 60kg
- Heavy-duty version can hold 100kg per shelf with a maximum overall weight of 300kg

## Boxwell trolleys

- Available with or without doors
- 100kg maximum weight per shelf
- Made from powder coated steel

## Baling wire

- Cut and loop baling wire
- Made from galvanised steel, corrosion resistant
- Available in 4.25m and 6m
- Breaking strain 22-28 tonnes per square inch

## Balers

- Used in a wide range of businesses to bale cardboard, plastic, paper, polystyrene, food waste and paper
- Pressing forces from 5 - 36 tonnes
- Available in 4 models

Bin Compactor Press

H3 - Small Baler

H20 - Extra Wide Mill Size

## Packroom equipment

### Carton staplers

- Heavy duty carton staplers for securing top and base flaps
- Reduces your plastic usage
- Adds efficiency to your packing process

### Hammer tackler

- For flat wire staples 6-14mm
- Best used with 140/8 Rapid staples
- Rugged steel construction with chrome finish
- Comfortable rubber grip

### Case erector

- Increase productivity by up to 233%
- Compatible with 2-inch and 3-inch tape
- Compact design for existing pack room set ups

### Pallet trucks

- Great for light and heavy loads
- Durable nylon wheels for easier movement
- Available with scales

### Knives & safety cutters

- Versatile range for general warehouse use
- Auto-retractable options for optimal safety

### Handheld staplers

- Perfect for general warehouse use
- Compatible with our range of staples

### Warehouse gloves

- Designed for tactile tasks
- Grip-enhanced, lightweight, and flexible
- High performance

## Chilled packaging

[kitepackaging.co.uk](http://kitepackaging.co.uk)

### Middle layer

Bubble wrap.

### Outer layer

Metallised polyester.

## Insulated box liners

- Gusseted, water-resistant, leak-proof & lightweight solution
- Arrives flat-packed for easy storage
- Ideal for the food and drink industry, and pharmaceuticals
- Available in Standard and Premium

### Standard

Comprised of BOPP (biaxially-oriented polypropylene) outer foil layer to reflect heat away.

### Premium

Inner HDPE foam layer which offers high resistance against moisture and chemicals.

## Ice packs

- Maintain an internal temperature during transit
- Manufactured to the standards of the food industry
- Optimal operating temperature -20°C to -30°C
- Eco-friendly water pack alternative available

### Gel packs

Simply freeze.

### Gel material

Water-based polymer gel.

### Outer layer

White LDPE mix-seal.

### Absorbent ice sheets

Submerge in water and then freeze.

### Top layer

PET composite PE film.

### Gel material

Super absorbent polymer.

### Bottom material

Double layer of white non-woven polypropylene.

Keeps content chilled up to  
**31HRS!**

### Corrugated box liners

- Highly durable insulating box liners
- Double wall corrugated 125gsm paper
- As effective as polystyrene
- Features seal-and-peel strip for easy assembling

Fully recyclable Cost-effective

### Thermal pallet covers

- Maintain temperature during storage and transit
- Water & puncture resistant
- Velcro application for ease of use
- Able to reuse multiple times

### Temperature controlled pouches

- Available in standard (single layer of bubble) and premium (single layer of bubble and foam)
- Simple envelope design with peel & seal strip
- Water-resistant, puncture resistant & leak-proof

Our food packaging category contains everything a restaurant, caterer, café or other establishment would need to supply aesthetic takeaway packs to their customers.

### Kraft takeaway boxes

- Utilises a water-based grease- and water-resistant coating
- Effectively protects food with four-flap integrated lid

- Recyclable
- Biodegradable

### Paper food bowls

- Sustainable kraft paper construction
- PE lining for grease-resistance
- Transparent lid for display

- Recyclable

### Tulip boxes

- Quick to assemble
- Strong and stylish
- Ideal for sandwiches and cakes
- Available in 3 sizes

- Recyclable
- Biodegradable

Available in plain or printed

### Pizza boxes

- Classic flip-top closure
- Ventilation keeps food fresh
- Flat-packed for easy storage
- Sizes in 9", 12" and 14"

- Fully recyclable

Clamshell

Premium

### Burger boxes

- Clamshell: kraft material, hinged lid, lock-in tab
- Premium: strong corrugated design, ventilated hinged lid

- Fully recyclable

### Cake boxes

- Feature acetate windows
- Perfect for birthday cakes, cupcakes, and more
- Kraft solid board construction
- Flat-packed for easy storage
